Subject: Presentation to Region 10 Cong Delegations on the Columbia/Snake River TMDL
Attachments: Col-Snake TMDL Wkpln7.wpd TMDL fact sheet.wpd tmdloutreach.final.wpd TMDLv3.PRZ snake_col_tmdl.jpg 1 FP Figure 1.wpg

The materials I planned to hand out at the briefings are attached. All of them will be much more readable on your screen if you launch them from Lotus Notes rather than view them. The first 2 are maps. The prz file is a Lotus Freelance Presentation. All of these files except the Freelance presentation are on our web page (www.epa.gov/r10earth/columbiainstemtmdl.htm). The presentation is an abbreviated version of a presentation that I have made all over the Region to interested groups such as Public Utility Districts, Irrigation Districts, Pulp and Paper Association, etc. The purpose of these briefings is to keep the delegations informed about the TMDL so that they can interact with their constituents when asked about it and so they can have input into the process. Call me at (206)553-8574 to discuss the briefings or any of these handouts. I will be in New Mexico most of the rest of the week but leave me a message and a time to call you back from there and I will call you back.
